Our Office Furniture Focus Is on You

Our focus is on meeting the needs of the business community

...the company that is an exciting start-up through that first-time new office with new furniture, to that second and third office where growth and success are firmly in place. Corporate Source is there to blend the transitions of environments, team growth, and financial abilities—always highlighting the culture of that firm's success.

Our focus is on providing you with payment options

...that range from check, purchasing, credit card, and ACH—all accepted on our website, or great leasing options that stretch your reserves into a payment stream. Our leasing options also allow you to incorporate “soft costs” like data cabling, relocation services, and decommissioning expenses.

Our focus is on enduring relationships

...driven by predictable and stable products, services, and people that you like.

Our focus is on top-quality furniture

...that meets a fit, form, function, and aesthetic to accommodate the look and durability decisions of business people who know what they want and understand the value of a dollar well spent.

Corporate Source Designs Work Environments

Make It Work in a Way That Invites You to Stay

Coming, going, standing, sitting, or leaning—the contemporary adaptive workspace requires complete flexibility. Whether you work from home, in the office, or wherever, the workspace must adapt to you!

Reception

The first impression makes a difference

From Class A to Class C buildings, elegant or functional, a client or potential partner needs to see that your work environment has purpose and intent.

Conference

Communication is key

Decisions are based on information and the way it is presented. Our technology solutions will make connectivity the last consideration when sharing those critical bits.

Private Office

Work with all of your tools at hand

Many of the functions within a business require privacy. The office also provides the working space to store what you need while keeping it accessible.

Open Plan

Systems—power beams—height adjustability

The term “cubicle” will for all time be associated with creating work spaces in an open area. However, there are hardly any workstations that would remind us of those boxes.

Lounge and Break

Seating and tables for comfortable downtime

Everyone needs to eat and enjoy a moment of downtime. Creating a workspace inviting relaxation will allow for a positive shared space and experience.

Training

For new employees or just getting the team updated

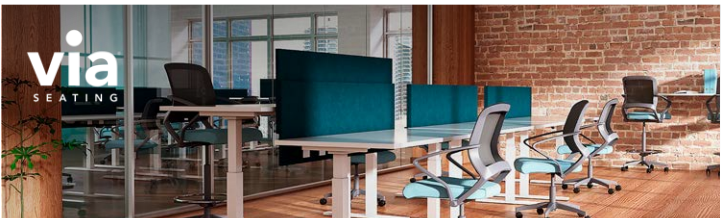

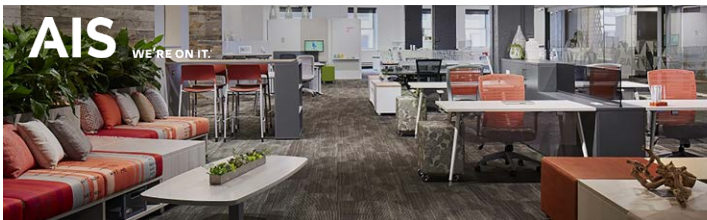

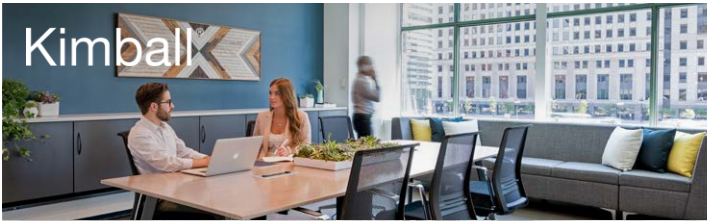

Flexible arrangements create dynamic learning environments that can expand as your demands change.

Corporate Source Adaptive Workspaces

We Speak the Language of the Contemporary Office

Corporate Source is helping companies navigate the changing dynamics of a modern-day office environment. We strive to help clients preserve contact, continuity, and collaboration; protect the health and safety of their teams; and foster productivity at every level of the organization. This may involve different solutions for those who come to the office every day and others who utilize it as their base or touch-down point.

Thoughtfully-Planned Office Furniture Solutions

With the right mix of products, planning, and creativity, we develop intelligent plans that help address the health and safety needs of the every day office. From retrofitting existing furnishings with appropriate screening measures to all-new designs from the ground up, our expert team has the perfect fix for your workplace.

Our Manufacturers Shape-Shift Your Work Environment

We're proud to work with progressive furnishings partners who share our forward-thinking mindset for the future of the workplace.

When you find your way to your future, we'll be there to welcome you.

Corporate Source Process Services

A Vast Offering of Services to Transform Your Vision

Our process starts with listening. We strive to fully understand your objectives and meet you wherever you stand on the workplace furnishings continuum. We can help you work through every aspect, from the abstract to the invoice, by providing insight and service specifically where required. Our process map can help frame the conversation.

Consult

Consultation and Concept Development

We seek out the latest and best research on workplace trends, so we can provide valuable counsel, regardless of your starting point. We'll work with you and your architect or designer to accurately translate your concept. Or we'll help you define a direction based on your goals and input from your team, then find and apply the right resources to visualize it. This is our business, and we thrive on navigating its dynamics.

Plan

Space Planning and Design Support

We'll calibrate the next step to your needs and create layouts and renderings to depict your vision or interpret your design team's work product into a plan that can be priced and scheduled. Our goal is to help address critical issues such as space allocation for hybrid workforces, complex employee schedules, or whatever your workplace circumstances or orientation require.

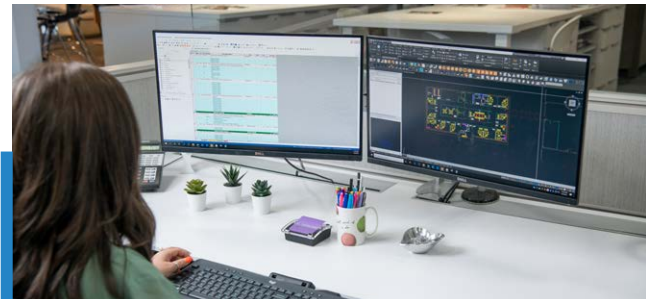

Evaluate

Furniture Options and Evaluations

We relish our role as matchmakers and represent a broad spectrum of high-end to mid-market manufacturers. We know their personalities, strengths, and niches. We make it our business to understand their embrace of the adaptive workplace, mastery of materials, and nuances of customization, delivery, and warranty. This insight helps ensure the best solutions and may involve multiple specialists.

Budget

Budget Development and Substantiation

Our needs evaluation and programming process, as well as our partnerships with over 200 furniture manufacturers, enable us to develop accurate, detailed budgets based on your plans. We can identify good/better/best options and include hybrid alternatives that blend new pieces with carefully pre-owned items and/or retain some of your existing components, where appropriate.

Safeguard

Return to Work Products

We seek out the latest and best research on workplace trends, so we can provide valuable counsel, regardless of your starting point. We'll work with you and your architect or designer to accurately translate your concept. We'll help you define a direction based on your goals and input from your team, and then find and apply the right resources to visualize it. This is our business, and we thrive on navigating its dynamics.

Specify

Furniture Specifications and Finishes

Every decision you make on shapes, configurations, materials, and fabric selections contributes to the realization of your vision. Whether you are matching an established aesthetic or pioneering a completely new look, we'll summon our experience to help you make the best, enduring choices for your brand, your teams, and your project parameters.

Customize

Furniture Related Services

Our comprehensive capabilities extend to all types of related services for single-source responsibility. Perhaps you require modifications to add tabletop power and data connections to a new or favorite conference table. We'll provide the expert craftspeople to handle it. We can also arrange for refinishing, reupholstery, repairs, steam, or other types of deep cleaning, as well as relocation and reconfiguration.

Complete

Options to Complete the Process

Above all, we are adaptive. While primarily a furniture planner and dealer, our role, as a part of parent company Total Office Solutions, enables us to add other options such as facility preparation and commissioning, office moving, furniture and equipment removal, installation and liquidation, technical support (including disconnecting/reconnecting IT equipment), as well as financing, including leasing. In addition, we invoice promptly, accurately, and with clear and easy-to-understand language.
